

COMPACT 16

Soft compact binder of high solid content based on acrylics, waxes & modifiers and matting agents.

CHARACTERISTICS OF EMULSION

Appearance	: White Emulsion
Solid Content	: 34 ± 1%
pH (10% Sol.)	: 8.0 ± 0.5
Viscosity	: 500 cps
Mechanical Stability	: Good

CHARACTERISTICS OF FILM

Transparency	: Opaque
Elongation	: 05 (1 Min. - 10 Max.)
Gloss	: 02 (1 Matt - 10 Glossy)
Shore Hardness	: 03 (1 Softest - 10 Hardest)
Tack Level	: Medium
Light Fastness	: Excellent
Cold-crack Resistance	: Excellent

BUTADIENE
COMPACKTS

COMPACT 16 is a special blend of acrylic binders, waxes and matting agents which is suitable for finishing of soft leathers.

High solid content and special matting agents used in **COMPACT 16** provide high covering and masking of grain defects.

Film formed by **COMPACT 16** is soft stretchy and flexible which makes it suitable for the finishing of soft leathers and dry milled leathers like Cow nappa, NDM, PDM etc.

COMPACT 16 provides high degree of levelling, smoothness and fastness properties to the treated leathers.

Leathers finished with **COMPACT 16** can be plated at relatively high pressure without the problem of cut through of finish.

COMPACT 16 can be used as the only binder in finishing season and can also be other acrylics of Acril-m series and with PU, various waxes and other auxiliaries provided they are not cationic in nature.

SUGGESTED APPLICATIONS:

Cow NDM	:	100 parts	Pigment – Nano Series
		300 parts	COMPACT 16
		100 parts	Urez 899
		600 parts	Water

IMPORTANT: PROTECT FROM FREEZING

Note : Suggested formulations are only for guidance and necessary modifications must be made to achieve a particular result.
