NOUVOL LS - 55 is a fatliquor composed of lecithin phospholipids and sulphated triglycerides. It makes the leather full, smooth and silky to the touch on both the sides. It can be used alone or combined with other fatliquors in order to achieve the desired results. Excellent results are obtained by using it with phosphorated derivatives like Nouvol PK / Luber SAS.

NOUVOL LS - 55 can be creatively used as general purpose fatliquor for use in ultra light weight garments and upholstery, where a light, fluffy leather with high degree of softness and smoothness is required. It has good light fastness and exhibits good fogging properties.

EMULSION INSTRUCTIONS:

To the required quantity of **NOUVOL LS - 55**, add slowly three times of its own weight of water at 60 °C, while stirring constantly.
