

## HARYANA

### NOUVOL - SV

Sulphited, fatty esters based synthetic fatliquor for smooth and soft grained leathers for light articles. Its unique character enhances the grain smoothness and helps in homogenisation of natural fat of leather.

#### CHARACTERISTICS:

<b>Appearance</b>	: White, Fluid Paste
<b>Active Content</b>	: 52 ± 1%
<b>pH (1 : 10)</b>	: 7.0 ± 0.5
<b>Emulsions</b>	: Finely Dispersed
<b>Stability</b>	: Excellent
<b>Light Fastness</b>	: Excellent
<b>Shelf Life</b>	: Six months

**NOUVOL - SV** produces an inverse emulsion, that is water in oil and not oil in water. This helps in homogenisation and re-distribution of natural fat of leather which otherwise is difficult to achieve with conventional fatliquoring system.

It makes the leather soft and damp to the touch and is completely light fast. It shows excellent stability to mineral tanning and is recommended for use in tanning or retanning bath where it improves the fixing and life span.

**NOUVOL - SV** should be prepared and applied alone due to its particular properties. It is specifically recommended for use with articles like softy, gloves and double-face leathers. It helps in opening up of the structure of treated leathers thus improving the grain smoothness and area.

LIGHT-  
WEIGHT  
FATLIQUORS

#### EMULSION INSTRUCTIONS:

To the required quantity of **NOUVOL - SV**, add slowly three times of its own weight of water at 60°C, while stirring constantly.

#### SUGGESTED APPLICATIONS:

Re-chroming	1.0 - 2.0 %	<b>NOUVOL-SV</b>
Pre-fatliquoring	1.0 - 2.0 %	<b>NOUVOL-SV</b>
Retanning	1.0 %	<b>NOUVOL-SV</b>
