<b>Rub Fastness</b>	: High
<b>Colours</b>	: Black, Brown, Blue, Yellow, Orange & Red
<b>Shelf Life</b>	: Six months

**NOVOLENE 'HC' Series** is a group of different coloured dye solutions and may be used for staining of leather, improving the brilliancy of season mixture and tinting of top coats etc. These products may be diluted with water as well as with solvents depending upon the use and desired end result.

These are fairly lightfast and hence may be used in top coats for most of the special leathers for improving the brilliancy of finish. These products may also be safely mixed with another anionic or non ionic products generally used in finishing season.

**NOVOLENE 'HC' Series** are also suitable for spray staining of crust leathers by diluting the product with suitable quantity of water and penetrator or water soluble solvent.

#### AVAILABLE SHADES:

Novolene-HC Black, Novolene-HC Brown, Novolene-HC Blue, Novolene-HC Yellow, Novolene-HC Orange, Novolene-HC Red. Intermediate colours may also be matched by mixing different products of this series.
