NOVOLENE Series is a group of different coloured dye solutions and may be used for economical leather, improving the brilliancy of season mixture and tinting of top coats etc. These products may be diluted with water as well as with solvents depending upon the use and desired end results.

These products are fairly lightfast and hence may be used in top coats for most of the special leathers for improving the brilliancy of finish. These products may also be safely mixed with another anionic or non ionic products generally used in finishing season.

NOVOLENE Series are also suitable for spray staining of crust leathers by diluting the product with suitable quantity of water and penetrator or water soluble solvent.

AVAILABLE SHADES :

Novolene Black, Novolene Brown, Novolene Blue, Novolene Yellow, Novolene Orange, Novolene Red. Intermediate colours may also be matched by mixing different products of this series.
