

UPHOL PFK

New generation polymeric fatliquor for extremely soft leathers.

CHARACTERISTICS:

Appearance	: Opalescent Soft Paste
Base	: Polymers & Sulphited Synthetic Esters
Active Content	: 55 ± 1%
pH (1 : 10)	: 7.0 ± 0.5
Charge	: Anionic
Stability	: High
Light Fastness	: Excellent

UPHOL PFK, a purely synthetic fatliquor, is a blend of special polymers and sulphited esters. It confers tight, fine grain and extra fullness. It penetrates through the whole cross section & lubricates the fibres well thus enhancing the internal softness. It imparts a rich surface feel to the treated leathers.

UPHOL PFK is specially recommended for very soft and lightweight leathers like upholstery, garment, gloving etc. It is heat and lightfast product and is non-yellowing. It can be safely used in the production of white or light coloured leathers.

EMULSION INSTRUCTIONS:

To the required quantity of **UPHOL PFK**, or the fat mix, add 3-4 times the quantity of water at 60-70 °C under constant stirring.

SUGGESTED APPLICATIONS:

LIGHT-WEIGHT FATLIQUORS

a) Buffalo Upholstery	Fatliquoring	6.0 %	UPHOL PFK
		6.0 %	Maradol C
		4.0 %	Nouvol LS 55
		4.0 %	Nouvol PK
b) Cow Nappa	Fatliquoring	4.0 %	UPHOL PFK
		2.0 %	Maradol C
		4.0 %	Nouvol LS 55
		6.0 %	Nouvol PK
		4.0 %	Luber SAS
c) Sheep Nappa	Fatliquoring	3.0 %	UPHOL PFK
		2.0 %	Maradol C
		3.0 %	Nouvol LS 55
		5.0 %	Nouvol PK
		2.0 %	Luber SAS

The product may show separation on prolonged storage or under extremes of temperature. However, this can be rectified, in most cases, by mixing thoroughly by stirring before use. Under normal conditions the product has a shelf life, of approximately 1 year if stored in cool dry place in unopened container.

Note : Suggested formulations are only for guidance and necessary modifications must be made to achieve a particular result.
