WHITE TOP is a non-aqueous pigmented finish, meant for application as top coat for white leathers. The product being free of any nitro compounds, has extremely good light fastness.

WHITE TOP as top pigment finish coat is quite economical because of its high pigment content.

WHITE TOP being nitro free, can be used for the production of shoes upper leathers where PU soles will be attached later.

WHITE TOP provides good surface feel with good elasticity. It is dilutable with organic solvents like Butyl Acetate in the ratio of 1:1.

SUGGESTED APPLICATION:

Top Coat : 100 parts **WHITE TOP**
100 parts Butyl Acetate

Note : Suggested formulations are only for guidance and necessary modifications must be made to achieve a particular result.
