

TOUCLON S 55

Characteristics	
Appearance	: Pale Transparent Liquid
Solid Content	: 11 ± 1%
pH (10% Sol.)	: N A
Flexibility	: Good

Solvent dilutable, slip agent and touch modifier which provides slippery, silky and mildly waxy feel to the treated leathers.

TOUCLON S 55 is a solvent dilutable handle modifier recommended for solventborne top coats suitable for a very wide range of leathers. It imparts a soft, natural and slippery feel that is mildly waxy as well. It significantly improves plate release and stacking properties and also promotes abrasion and scuff resistance.

TOUCLON S 55 is fairly light fast and may be used as feel coat for pastel shades also. The product contains high molecular chain silicones that do not migrate into the leather on ageing and retains the feel for a comparatively longer period.

Usage

Touchlon S 55 may be used in conjunction with solvent lacquers e.g. Top 46 or self-emulsifiable lacquers as Aquasol 100.

- a)

:

100 parts Top 46

50 parts Touchlon S 55

400 parts Butyl Acetate
- b)

:

5-10 parts Touchlon S 55

90-95 parts Thinner

REACH COMPLIANT

Green-Trek- Compliant

A symbol of our commitment to sustainable technologies

Storage : Store between +5 ' c to 35 ' c in original pack, well-sealed & stored.
Shelf-life : Product is stable for 6 months from the date of production / Invoice.

Non flammable

Avoid direct contact with skin

Store in dry place

Use Gloves / Ensure Ventilation
