Storage : Store between +5 °c to 35 °c in original pack, well-sealed.
Shelf-life : Product is stable for 6 months from the date of production.

Non Flammable / Keep Flames Away Store Indoors

Protect From Snow Use Gloves/Ensure Ventilation

Clear, waterborne, NC lacquer emulsion with a unique waxy touch and a warm handle designed exclusively for high fashion clothing and soft upper leathers. DOP / DBP free.

HICALAC W 309 imparts a warm, waxy film of good fastness, low gloss and highly natural feel and look. It is an Ideal choice of top coat for lightly finished, high fashion garment and shoe upper leathers that need a uniform and smooth surface.

HICALAC W 309 films exhibit good flexibility, wet/dry rub fastness and show fairly high anchorage & scuff resistance. Excessive coating / over spraying of Hicalac W 309 on leather should be avoided as it may sometimes result in crease whitening.

Emulsion Instruction:

To the required quantity of Hicalac W 309 add slowly the required quantity of soft water, while stirring constantly.

Usage

Hicalac W 309 is normally sprayed as top coat on leather after dilution with water in ratio of 1:1. The following products may also be incorporated with it for modifying the surface touch / feel of the leather.

10 parts Finish M 15
or 10 parts Finish M 45
or 10 parts Celina 34 KT

Note: Suggested formulations are only for guidance and necessary modifications must be made to achieve a particular result.
