Colloidal filler dispersion in water (wax free) for upgrading low quality raw hides .

FILLER 12/61 acts as a filler and gives leather a smooth and settled appearance. It is recommended because of its with high hiding power to finish corrected grain cattlehide and splits that need upgradation due to low quality raw stock. It improves the feel and plating properties of finished leather and also helps in avoiding sticking of leather during pile up.

FILLER 12/61 does not over load / over fill the grain and has excellent print retention. The finish obtained is opaque and dull, effectively hiding the defects of leather surface. Compatible with all resin binders and auxiliaries for moderating the filling effect and feel. Can even be applied by Spatula.
