

CELINA P 31

Characteristics

Appearance	: Whitish Soft Paste
Base	: Blend of Waxes in Emulsion
	Form
Solid Content	: $22 \pm 1\%$
pH (10% Sol.)	: 7.5 ± 0.5
Charge	: Anionic
Stability	: Good
Light Fastness	: High

REACH COMPLIANT

Green-Trek- Compliant

A symbol of our commitment to sustainable technologies

Storage : Store between +5 °c to 35 °c in original pack, well-sealed.
 Shelf-life : Product is stable for 6 months from the date of production.

Non Flammable / Keep Flames Away

Store Indoors

Protect From Snow

Use Gloves/Ensure Ventilation

Aqueous burnishing wax emulsion designed for producing burnishing effect and a warm waxy feel.

CELINA P 31 is a special wax for burnishing finishes for both full grain and corrected grain leather. The product provides an elegantly warm and waxy feel and the treated leather surface has a natural luster to it. It also provides darkening effect by polishing yielding a "bruisable" finish.

CELINA P 31 provides relatively hard film due to selection of waxes, but still the surfaces have uniformity, a very natural aspect and handle. It is generally applied by spray gun .

Emulsion Instructions:

Celina P 31 is readily soluble in water or suitable penetrator like Luber 150. Recommended dilution ration with water is 1:2 or 1:3.

Usage

For Burnishing Effect :

100	parts	Celina P 31
200	parts	Water
10	parts	Finish M 45 (Optional)

Spray one or two coats on snuffed leather, dry well, polish lightly or kiss plate at 60°C.

Note: Suggested formulations are only for guidance and necessary modifications must be made to achieve a particular result.
