

MODIFIER 32

Characteristics of Emulsion

Appearance	: Yellowish Transparent Liquid
Solid Content	: 12 ± 1%
pH	: N.A.
Flexibility	: Good

Solvent dilutable, slip agent and touch modifier which provides natural silky and slippery feel to the treated leathers.

MODIFIER 32 is a solvent dilutable handle modifier recommended for solventborne top coats suitable for a very wide range of leathers. It imparts a soft, natural and slippery feel. It also significantly improves plate release and stacking properties, and promotes abrasion and scuff resistance.

MODIFIER 32 is fairly light fast and may be used as feel coat for pastel shades also. The product contains high molecular chain organo-silicones that do not migrate into the leather on ageing and retains the feel for a comparatively longer period.

Usage

Top Coat	:	100 parts Top 46
		10 parts Modifier 32
		390 parts Butyl Acetate
Feel Coat	:	50 parts Modifier 32
		950 parts Butyl Acetate
