

FILLER KT

Characteristics of Emulsion

Appearance	: Yellowish Paste
Nature	: Mildly Cationic
Solid Content	: 20 ± 1%
pH (10% sol.)	: 6.0 ± 0.5
Mechanical Stability	: Good

REACH COMPLIANT

Green-Trek- Compliant

A symbol of our commitment to sustainable technologies

Storage : Store between +5 °C to 35 °C in original pack, well-sealed & stored.
Shelf-life : Product is stable for 6 months from the date of production / Invoice.

Non flammable

Avoid direct contact with skin

Prevent from freezing

Use Gloves / Ensure Ventilation

FILLER KT is cationic filler based on amidic derivatives of fatty acids, which is free from any kind of binder and hence does not load the leathers.

FILLER KT is mildly cationic waxy filler based on carefully selected ingredients, which can be used as an auxiliary for polishing pre-grounds and also as a feel modifier. In season, it helps in reducing the tack and provides "fatty – waxy" feel to the leather. The product exhibits good polishability and can be combined with PUD 48 KT and other auxiliaries for polishing grounds where it provides excellent masking of grain defects and improves the uniformity of absorption. Leathers finished with Filler KT also gain in softness.

FILLER KT has good plate releasing properties and also finds its use in anionic finishing system after checking its compatibility with other products used in season.. It may also be used alone, or in combination with other modifiers like Finish M 45 and Celina 34 KT, as final feel coat on finished leathers to impart permanent waxy feel.

Usage

Polishing :	40 parts	Black 33 KT		
	100 parts	Brillento 91 KT		
	60 parts	Filler KT		
	700 parts	Water		
	70 parts	PUD 40 KT	1 to 2 X coats,	
Ground	30 parts	PUD 48 KT	dry well, Polish.	
	30 parts	Black 33 KT		
	30 parts	Filler KT		
	40 parts	Celina 34 KT		
	100 parts	Brillento 91 KT		
	650 parts	Water		
	100 parts	PUD 40 KT	2 to 3 X coats,	
	50 parts	PUD 48 KT	dry well, Finiflex.	
	Season :			
Coat
