

## SENSALLON W

### Characteristics of Emulsion

Appearance	: Milky White Liquid
Solid Content	: 36 ± 1%
pH (Without Dilution)	: 8.0 ± 1
Nature	: Non-ionic
Mechanical Stability	: Good
UV resistance	: Excellent

### REACH COMPLIANT

### Green-Trek- Compliant

□ symbol of our commitment to sustainable technologies

Storage : Store between +5 °C to 35 °C in original pack, well-sealed.  
Shelf-life : Product is stable for 6 months from the date of production.

Non Flammable / Keep Flames Away      Store Indoors

Protect From Snow      Use Gloves/Ensure Ventilation

*Aqueous, waxy feel modifier with a soft and natural touch for high value garment leathers.*

SENSALLON W is a non-ionic, waxy feel modifier used with water as final coat on high fashion clothing leather. It imparts permanent waxy feel with a soft, natural and slippery touch. When used in top coats, it improves the Taber resistance and wet / dry rub fastness of top coats. It has excellent UV resistance, thus ensure good heat/ light ageing.

SENSALLON W is also used in lacquer emulsion like Hicalac 316 for improving the flow behaviour and feel. Being non - ionic It is highly compatible with other modifiers, cationic or anionic, to vary its feel on leather. It is recommended to ensure its compatibility in cationic systems before use.

### Usage

Top Coat	:	5 parts Sensallon W	
		100 parts Hicalac 316	1 to 2 X coats,
		90 parts Water	dry well, kiss plate
Feel Coat	:	60 parts Sensallon W	
		900 parts Water	1X coat.
