

TOUCLON S 55

A solvent based touch modifier produced from special Amino Silicon polymers. It imparts a waxy feel and acts as a refreshing dressing for fibers of treated leathers with slight darkening of the color. A product of high molecular chain, it does not migrate into the leather on ageing and hence retains the feel for a comparatively longer period. It is fairly light fast and can be used for feel improvement and pastel shade uppers.

- Characteristics :
- Quick drying, solvent based touch modifier
 - Provides waxy and silky feel
 - Retains the feel for a longer period
 - Imparts light fastness
 - Acts as a refreshing dressing for fibers of leather

Physical Properties :

Appearance	: Transparent liquid
Solubility	: Soluble in solvent
Active %	: 12 ± 1
pH	: N, A.

- Procedure :
- Clean the surface thoroughly
 - Apply **Touchlon S 55** with spray gun
 - Adjust spray gun pressure to 3 - 4 atm
 - Ideal spraying distance should be 30 cm
 - Dry the surface completely
 - Brush lightly with sponge to raise the nap
 - Use **Luber B** for dilution, if required

Packing : 1 kg in plastic Bottle | 10 kg in plastic Jerrycan | 30 kg in HDPE Drum
 Storage : Store between +5° c – 35° c in original pack, well sealed.
 Shelf-life : Product is stable for 9 months from the date of production.

REACH Compliant

Non Flammable / Keep Flames Away Store Indoors

Protect From Snow Use Gloves/Ensure Ventilation
