Storage : Store between +5 'c to 35 'c in original pack, well-sealed.  
Shelf-life : Product is stable for 6months from the date of production.

*Multipurpose Sulphited Sperm Oil Substitute Fatliquor: Used as main or In combination.*

LUBER G 60 is a highly versatile fatliquor that can be used for a wide variety of articles from soft garment to tight uppers or even upholstery. It imparts uniform handle across all areas, fullness and roundness to crusts and also keeps the grain tight and elastic. It can be used as main fatliquor for shoe uppers. It successfully reduces boniness in hard natured raw materials.

LUBER G 60 due to its stable sulphited component, is fairly lightfast and may be used for the production of pastel shade leathers without any tendency to discolour the leather on ageing. Generally compatible with most anionic products, it can be combined with most types of fatliquors except cationic. It is fairly stable to acids, salts and hard water & can be used during pre-fatliquoring, rechroming and / or neutralisation.

Usage

Stir before use 

- Cow nappa: 4-10% + others
- Goat : 4-10% + others
- Sheep: 3-8% + others
- Shoe Full Grain: 2-3% + others
- Shoe Nubuck : 2-3% + others
- Split Suede: 2-6% + others
